

# The Annett Nature Center

Each of us makes our own commitment to conservation. As residents of a rural county, we are surrounded by its beauty. Whether it's farmland, wild prairie, oak tree groves, or our own backyards, the land is an important asset. Wildlife can be as close as the song birds outside our windows or as remote as a great horned owl that we hear but never see.

The Annett Nature Center is a beautiful, prairie-style building, designed to meet the needs of Warren County's citizens, focusing on our children. The Annett Nature Center is a place to center our conservation activities and houses many features including:

- Educational display area
- Live animal exhibits
- Meeting space
- Kitchen facilities
- Pavillion and large deck
- A classroom
- and more...

The Friends of Warren County Conservation invite you to participate in a special contribution program. The Oak Tree Fund provides an opportunity to contribute to the Annett Nature Center.

Our special contributors are very important to us, and we honor their gift in a unique way. All special contributors have their name or message engraved and placed on a metal plaque. Each plaque forms a vital piece of the Oak Tree wall display in the foyer of the Annett Nature Center. As support for the nature center grows, so does the oak tree. This growing memorial will remain as an enduring sign of support for the life of the building.

Select from the following contribution levels

**Oak leaf Gold plaque** **\$100**

**Oak leaf Bronze plaque** **\$250**

**Small Acorn** **\$500**

Small oak acorn with square gold plaque

**Oak Tree Branch** **\$1,000**

Forming the tree with a rectangular green plaque

**Large Acorn** **\$5,000**

A custom carved acorn with engraved plaque

## The Oak Tree Fund

*Yes, I want to support Warren County Conservation by becoming a part of the Oak Tree Fund.*
